## Getting started at FHS: your first five steps

Welcome to the Faculty of Humanities! This guide walks you through everything you need to start studying. It takes about ten minutes — and if anything goes wrong, contact us, we are happy to help.

### 1. Activate your CAS account

The Central Authentication Service (CAS) account is your key to all university systems — SIS, Moodle, e-mail and Wi-Fi. You will receive your password when your student card is issued at a [card issuing centre](#) , or you can set it online at [ldap.cuni.cz](#) .

### 2. Create your JINONICE domain account

This account logs you into faculty computers and the student printer. Sign in at [ldap.cuni.cz](#) with your **verified** CAS password and set a JINONICE password under "Other accounts".

### 3. Set up your student e-mail

Student mailboxes run on Microsoft 365 at [office365.cuni.cz](#) . All official university messages go there — check it regularly or set up forwarding.

### 4. Connect to Eduroam Wi-Fi

Set your Eduroam password in CAS at [ldap.cuni.cz](#) , then connect with the username in the form **yourpersonalnumber@cuni.cz**. Eduroam works at universities worldwide.

### 5. Log into SIS and Moodle

Use [SIS](#) for course and exam registration and [Moodle](#) for course materials. Both use your CAS login.
